## Activating your support license

The 15 version of TSplus introduced a new and easy way to handle your annual support contract.

The support services include our worldwide Ticket/Email support service, Forum access, license rehosting, FAQ and tutorial support.

The Update Services include the delivery of Update codes, the right to install and to use any new release, patch and updates.

We are investing every day to enhance TSplus and to fix all known issues. So, we recommend all our customers to keep their TSplus installation updated. The annual fee is not expensive and is available on our Store Page.
