

# Access Saved Remote Computers

Each agent can save their own list of remote computers so they are easy to find later.

## Add a computer

Click on the **add** button to add a new computer to your list.

A screenshot of a dialog box titled 'Add a computer'. It has four input fields: 'ID:', 'Name:', 'Password:', and 'Custom Note:'. The 'ID:' field is a single-line text box. The 'Name:' field is a single-line text box. The 'Password:' field is a single-line text box with a toggle icon (an eye) to its right. The 'Custom Note:' field is a multi-line text area. At the bottom left is a grey 'Cancel' button, and at the bottom right is an orange 'Save' button.

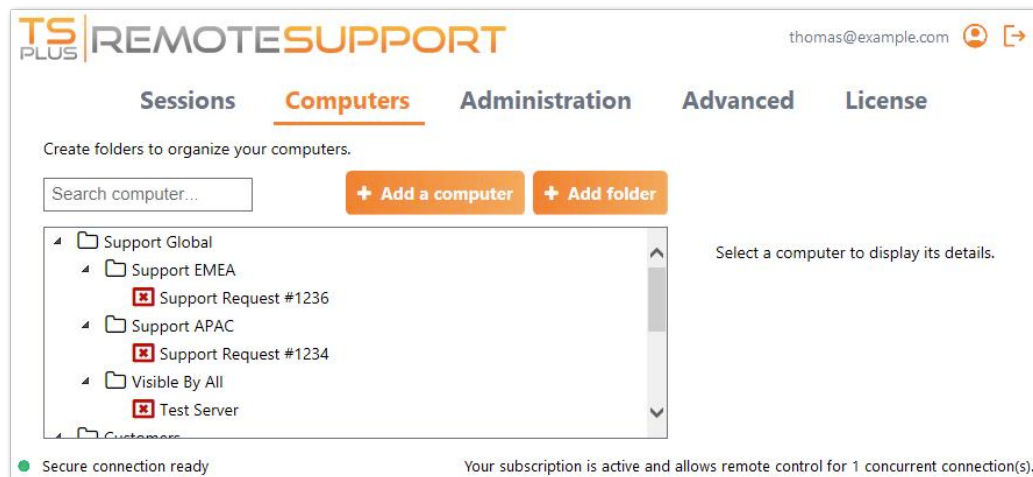

Only the computer ID is necessary to add a new computer.

Additionally, you can provide a custom name for the computer. If no name is entered it will default to the computer ID.

If you have unattended access to this computer, you can also store the computer's Remote Support password.

Agents can keep notes about each PC in the Remote Computer list.

## Manage computers

You can search a computer in your list using the search bar.

You can edit your computer information at any time. Just click on the computer you want to edit. Its information will appear on the right of the screen. Edit your information directly and it will be saved automatically.

The **Connect** button enables agents to start a remote session to the selected computer in one click.
