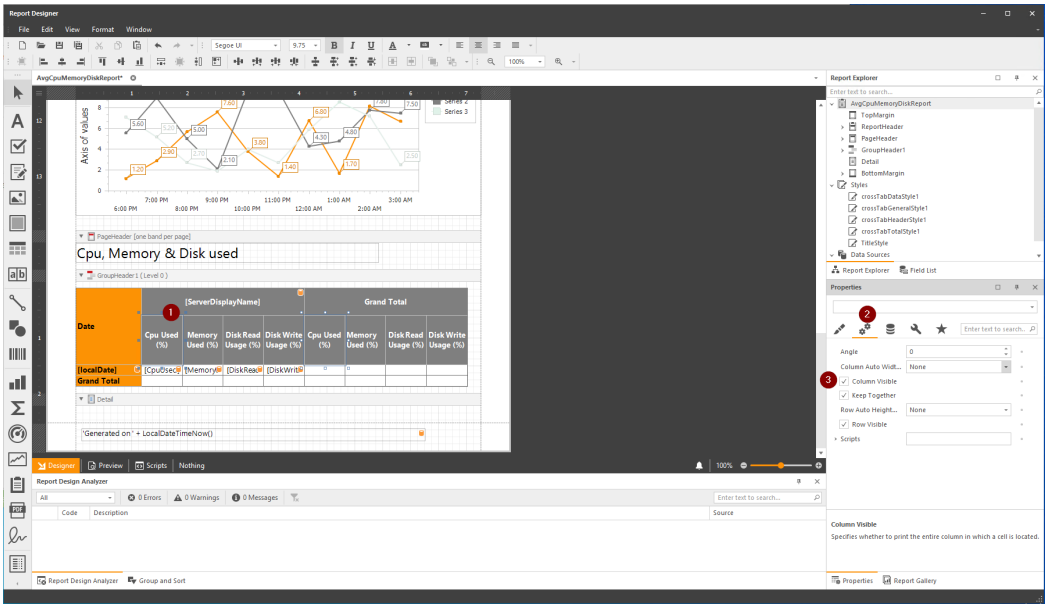
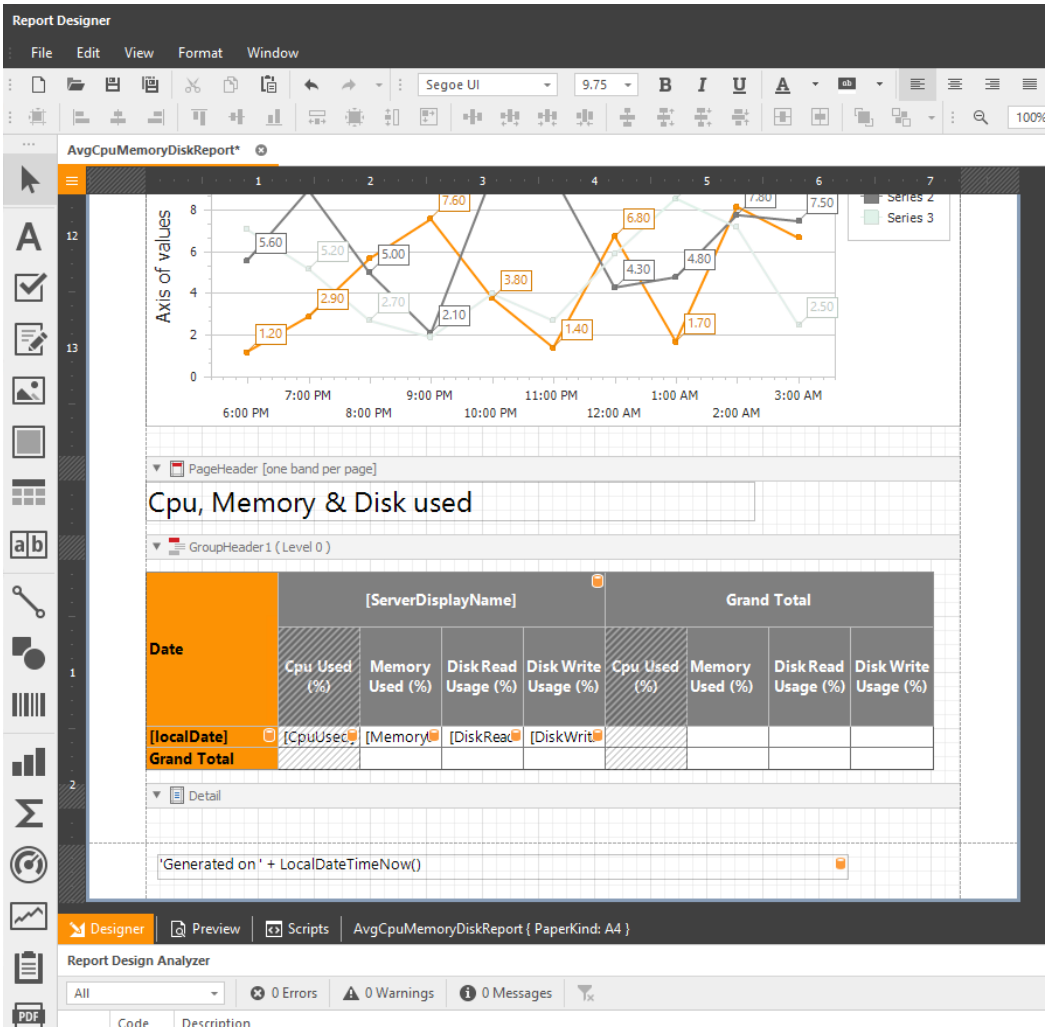
How to: Change visibility of some infos on custom report

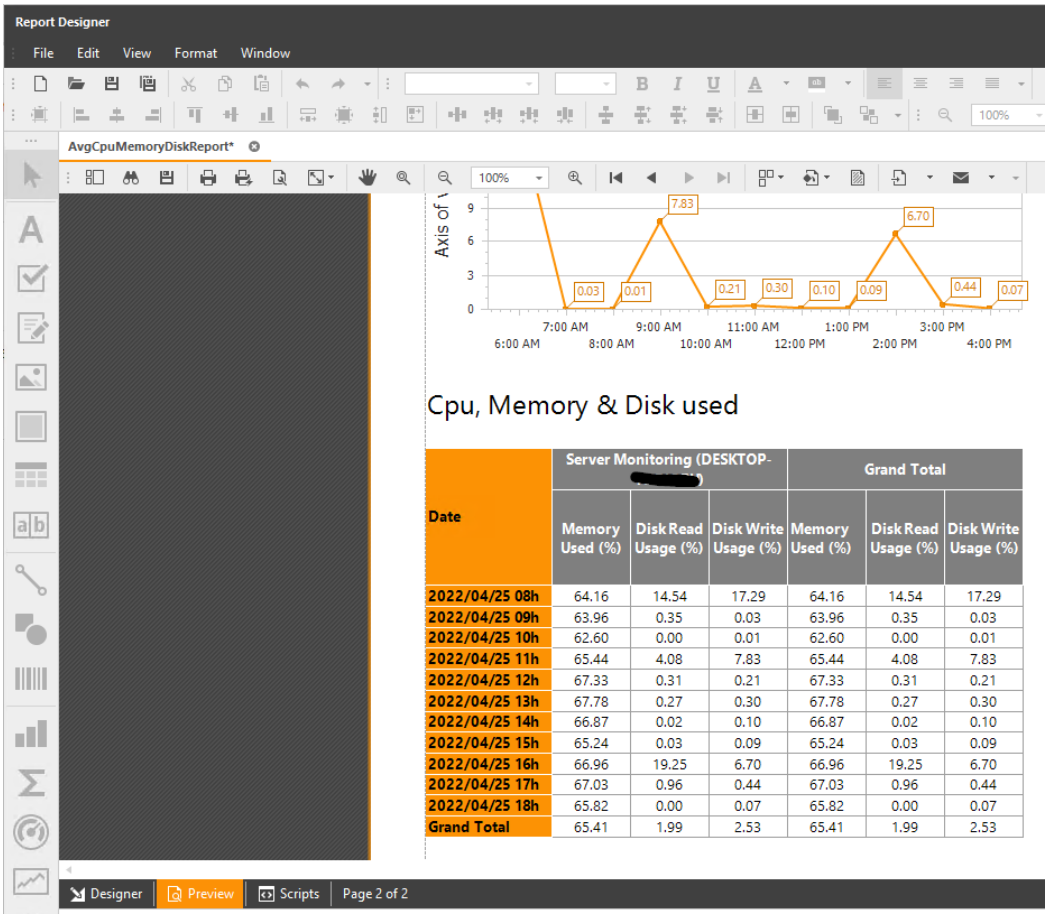
You may be interested by only some indicators on a report. You can hide the others by clicking on the concerned fields, and then in the **Behavior properties**, you can tick the **Column Visible** checkbox:



Then, in the **Designer view**, you will see the fields greyed out:



And in the **Preview view**, you will see the fields hidden:



Cpu, Memory & Disk used

Date	Server Monitoring (DESKTOP-[redacted])			Grand Total		
	Memory Used (%)	Disk Read Usage (%)	Disk Write Usage (%)	Memory Used (%)	Disk Read Usage (%)	Disk Write Usage (%)
