

# Choose a nickname for your servers

Sometimes, the server computer name is not the easiest way to distinguish your monitored servers. ServerGenius enables you to choose a nickname for your servers and easily identify them.

From ServerGenius homepage, select **Administration** and then, click on **RDS Servers**.

Servers Management			
<a href="#">+ Add a new Server</a>			
Server Nickname	Computer Name	Edit Nickname	Remove
DESKTOP-EEDE997	DESKTOP-EEDE997	<a href="#">Edit</a>	<a href="#">Remove</a>

From the list of monitored servers, click on **Edit** in order to give a nickname to the corresponding server.

# Server Nickname Edition

## Edit Server Nickname

**Server Alias**

**Save**

Type a **nickname** for your server, and then click **Save**.

Servers Management			
			<a href="#">+ Add a new Server</a>
Server Nickname	Computer Name	Edit Nickname	Remove
My Application Server	DESKTOP-EEDE997	<a href="#">✎ Edit</a>	<a href="#">🗑 Remove</a>

Your server has been renamed in ServerGenius and will be displayed using the specified nickname in the reporting sections.
