

Websites Management

The **Websites Management** page enables you to display the list of monitored websites, add a new website to monitor and remove a website.

The **Websites Management** page can be found under the **Administration tab > Websites** of Server Genius:

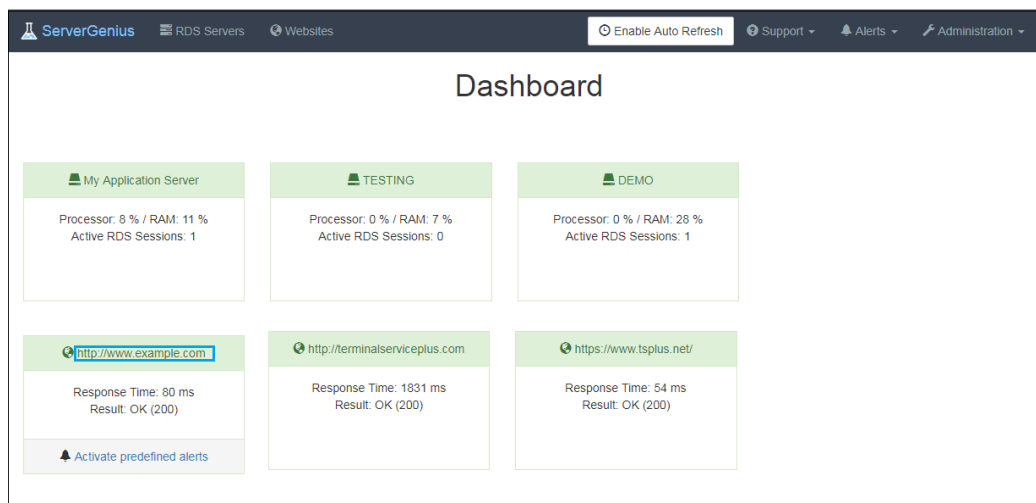

Add a new website by clicking on the **Add a new Website** button. Then, the **New Website** page is displayed and invite you to specify the new website web address:

Please note that in case the protocol is not specified, "http://" will be prepended to the website address provided. For example, if the website address is `www.example.com`, then the website address monitored by ServerGenius will be

<http://www.example.com>. Also, please enter two website addresses to monitor if your website is accessible through both "http" and "https".

Your new website should be visible on the **Websites Management** page and on the **Dashboard**:
