Advanced Features - Contextual Menu

Overview

Since TSplus version 12.50, a new **"Send to Client" menu** can be enabled under the Advanced > Contextual Menu tab to easily send files to client workstation. This feature works with all connections methods.

1 TSplus - Administration	Console -		-	×
	Remote Access Man	agement Console		
	Backup / Restore	your Server Parameters		
PRINTER	Nroduct	Name Enabled Position	Value Defauit (No) Defauit (Top)	
FARM	Cockout Icockout Icoc

ADVANCED				
슈가 add-ons				

By default, this feature is disabled. Select the "Yes" value then click on "Save", in order to enable it :

ᠯ TSplus - Edit Setting		\times
Enabled		
Description:		
Add a button in the contextual menu displayed on a file, folder or a multiple selection in the File allows users to quickly send selected objects to computer.	e Explorer. It	< >
Value:		
Yes		\sim

You can also change its position. By default, it will show on top:

1 TSplus - Edit Setting	×
Position	
Description:	
Position of the button in the contextual menu.	~
	×
Value:	
Тор	~
Save	Cancel

This is a right-click contextual menu. Just select the desired folder or files, right-click on it, select the "TSplus" tab and simply click on "Download":
