HTTPS & SSL Third Party Certificates

Add your own certificate

If you already have a valid HTTPS certificate you can add it to your web server.

Open TSPlus AdminTool, click on the "Web" tab, go to the "HTTPS" menu and then click on "Add my HTTPS certificate" as shown in the screenshot below:

A window will open where you can select your certificate:

G Add my HTTPS certificate		_		×
Certificate Path			Browse	
Password				
	Add my HTTPS certificate		Cancel	

Your certificate file must use the ".pfx" format.

If your certificate is protected by a password, you can enter it in the corresponding field.

Click on the "Add my certificate" button to add your certificate.

Please note that you will need to renew your certificate manually.
